\$30,000 contribution for new Algonquin campus

The Rotary Club of Petawawa, represented by Treasurer Lorne Wilson (right), presented a cheque for \$30,000 to Algonquin College in the Ottawa Valley Dean Karen Davies (left) for Renaissance Square, the new Algonquin College campus to be built near the City of Pembroke waterfront. The projected cost of the 80,000 square foot facility is \$36 million and the campus is expected to be open by the Fall of 2012. A construction start date has been set for April 2011. The College has set a goal of raising \$2.5 million through a community capital campaign, funds that will be put towards the overall project cost. (Photo by Lisa Brazeau, Petawawa Post)
